STAT

Your papers have been reviewed by the various members of our staff who might be able to use a man of your background.

While your qualifications are interesting, you are undoubtedly aware of the limitations on Government salaries. The consensus is that the salary you have set would preclude your placement with this Agency. The possibilities of finding a spot for you within the \$7,600 - \$8,800 range would be considerably greater.

Should you feel that you can afford to revise your salary request downward, we shall be happy to reexplore the possibility of placement on that basis.

Very truly yours,

STAT
